You need to activate the Coachify Pro license key in order to receive plugin updates and get quick support from our support team. We update our plugin on a regular basis to solve compatibility issues, fix bugs, make the plugin more secure, and even add extra features.

Please follow the below steps to activate the license key for the Coachify Pro plugin installed on your website:

1. Navigate to **Admin Dashboard > Appearance > Coachify.**
2. Under the Dashboard tab, inside the license key field, enter your license key and then click on **Activate License**.
