Customizer Reset

Addons · https://wpcoachify.com/docs/customizer-reset/

The Customizer Reset addon provided by the Coachify Pro plugin adds a Customizer Reset option in the Coachify theme customizer. With the Customizer Reset option, you can reset all the settings added to the customizer back to its default settings.

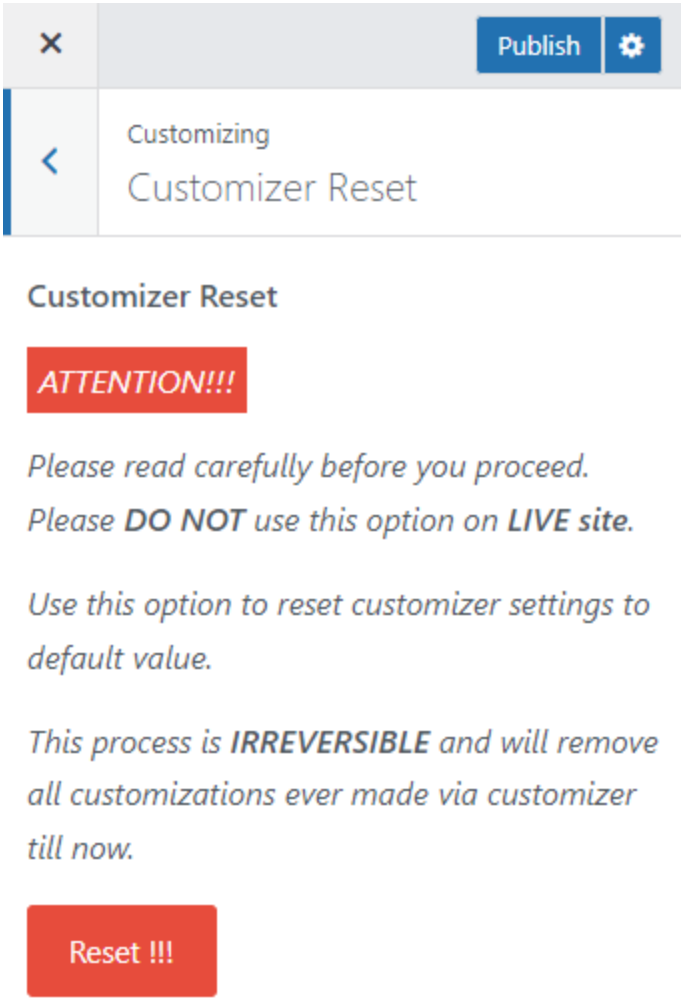

Activating the Customizer Reset addon

You can access the Customizer Reset addon via **Admin Dashboard > Appearance > Coachify > Addons.** Then click to enable the **Activate** option to get the Customizer Reset addon to work.

Configuring Customizer Reset Settings

Once the Customizer Reset addon is activated, you can access the Customizer Reset setting via **Admin Dashboard > Appearance > Customize > Additional Settings > Customizer Reset.**

You can simply click on the **Reset** button to restore the customizer settings back to its default state.
