Popular Posts

Coachify Blocks · https://wpcoachify.com/docs/popular-posts/

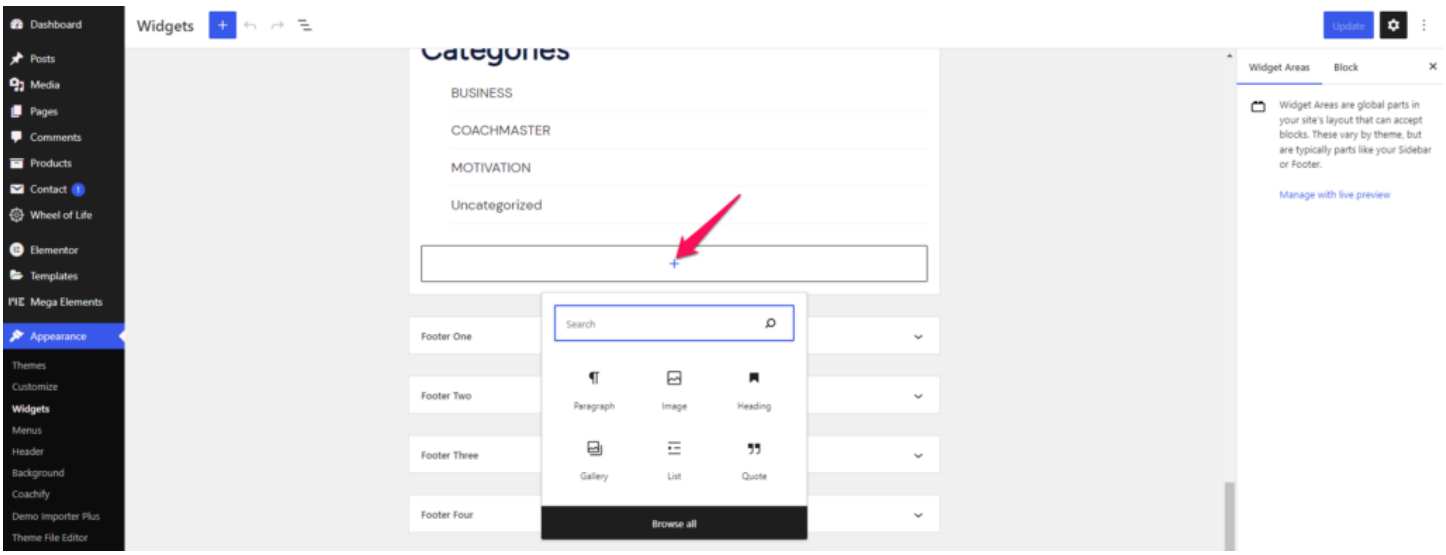

You will need to install and activate the Coachify Pro plugin and activate the Sidebar Blocks addon in order to use the Popular Posts block.

The Popular Posts block displays the most popular posts on the user's website based on either the view count or the number of comments received by a particular post.

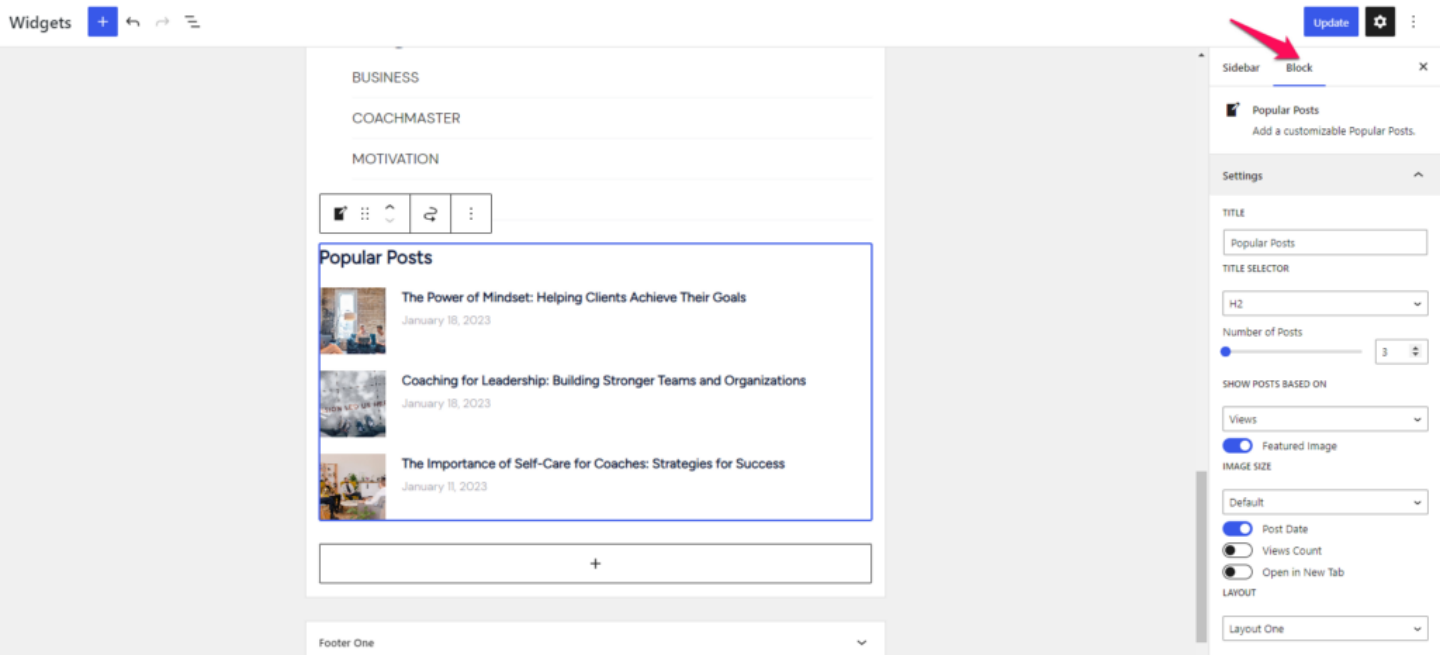

Visitors can have direct reach to the articles that other readers have already found helpful. This feature in a website can further help increase user engagement, conversions, and sales.

How to add the Popular Posts block?

- Visit **Dashboard > Appearance > Widgets**.
- Inside the Sidebar dropdown option, click on the Add block “+” icon.

- Search for Popular Posts and click on the block to add it.
- The block will be added to the sidebar which you can further configure via the provided Block Settings.

Block Settings

The following is the list of block settings provided to configure the Popular Posts block.

Title: You can enter the title for the block added here.

Title Selector: Select the Heading Style for the block title.

Number of Posts: Select the number of posts you want to display.
