Recent Posts

Coachify Blocks · https://wpcoachify.com/docs/recent-posts/

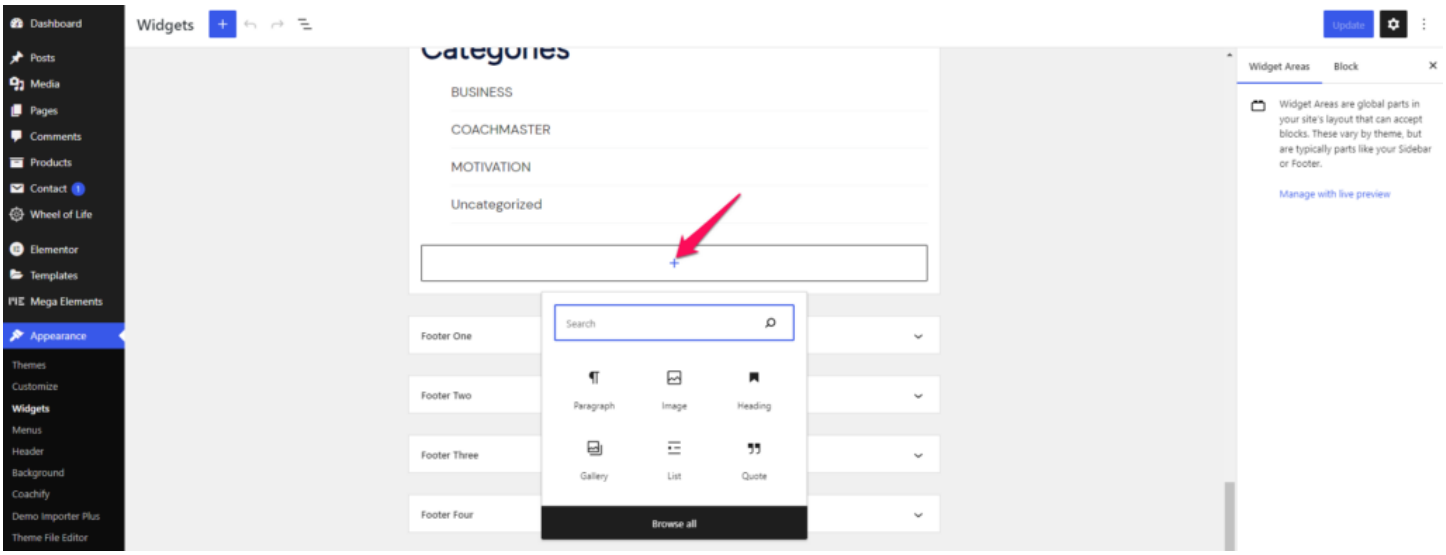

You will need to install and activate the Coachify Pro plugin and activate the Sidebar Blocks addon in order to use the Recent Posts block.

The Recent Posts block displays the list of the latest posts that are published on the user's website.

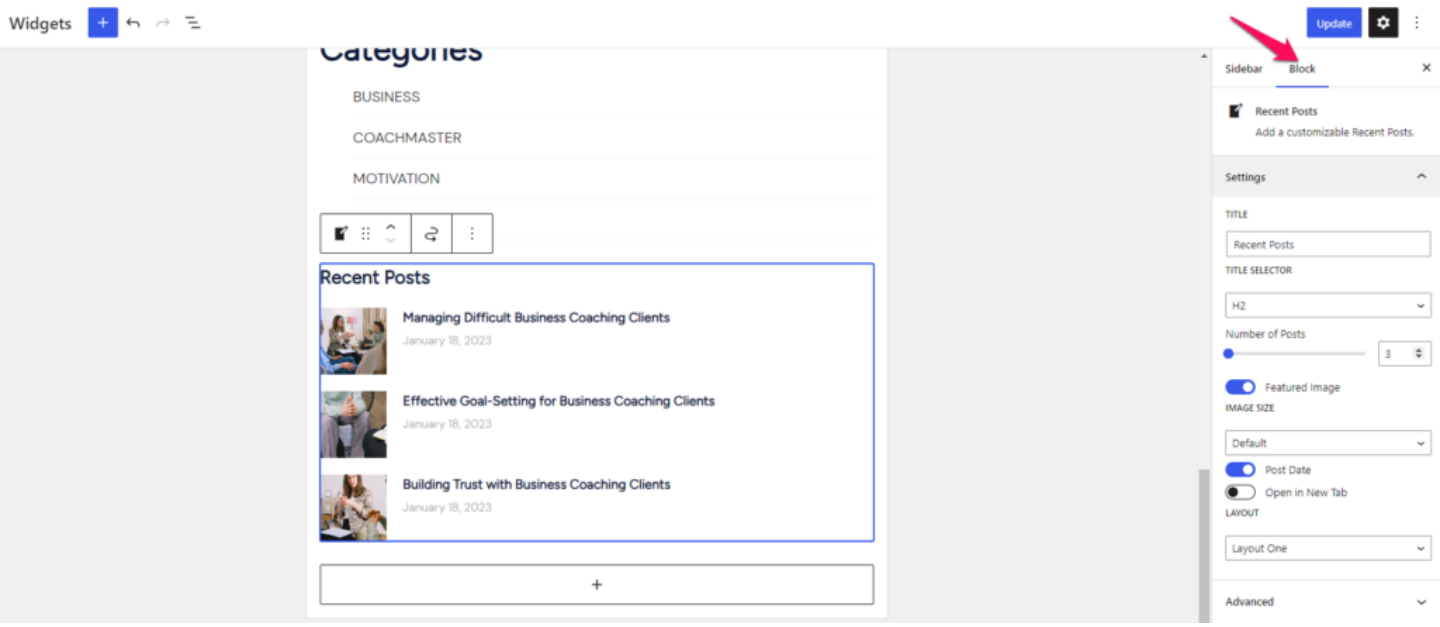

This feature will provide the site visitors with a direct reach to the new content added to your website and make them spend more time on your website.

How to add the Recent Posts block?

- Visit **Dashboard > Appearance > Widgets**.
- Inside the Sidebar dropdown option, click on the Add block “+” icon.

- Search for Recent Posts and click on the block to add it.
- The block will be added to the sidebar which you can further configure via the provided Block Settings.

Block Settings

The following is the list of block settings provided to configure the Recent Posts block.

Title: You can enter the title for the block added here.

Title Selector: Select the Heading Style for the block title.

Number of Posts: Select the number of posts you want to display.

Featured Image: Enable this option to display the featured image of the posts being displayed.

Image Size: Choose to display either the Default size or Full size image as the post thumbnail.

Post Date: Enable this option to display the date when the respective posts were published.

Open in New Tab: Enable the option to open the post links in the new tab.

Layout: Select your preferred layout for the Recent Posts block.
